Ulterior Garnacha 2019
Verum - 75 cl.

Ulterior is a project that saw the light in 2007. Planting was done in el Romeral, in the center of La Mancha (Tomelloso). At the base was Elias López-Montero, according to Decanter one of Spain's most promising oenologists. With great respect for his terroir and his history, Elias manages to make beautiful wines that underscore the authenticity of his region.

Vinification
The entire Ulterior project consists of organic vineyards. A study was even worked out in collaboration with the Instituto de la Vid to determine which native grape varieties would be best suited to cope with climate change. The grapes are picked manually and receive their vinification on Terracota amforae. Only 10% ripen on large holding fouders.

Description domain

This family estate lies in the heart of La Mancha. In 2007, with the Ulterior-project, at Finca El Romeral, Elias (one of the 4 brothers and sister) decided to replant old local varieties to make authentic wines with a sense of terroir. These local grapes, are better adapted to the climate change.
