Viñátigo Vijariego Blanco 2025
Viñátigo - 75 cl.

Viñátigo makes mono-cépage wines from indigenous grape varieties that have somewhat disappeared from the scene. 'Pie franco' planted on volcanic soils. Vijariego Blanco is the grape variety with the highest acidity in the Canary Islands. It also has very good adaptability in various environments. The plots are located in the villages of San Juan de la Rambla, La Guancha and Icod de los Vinos, in north-western Tenerife. Because of its good adaptability to different environments, plantings are between 200 and 1000m. Young volcanic soils, mainly sandy. Total production of only +- 3000 bottles.

Vinification
Fermentation in oak barrels (1 to 3y old) from Allier 'sur lies' with bâtonnage for 6 months. Only autochthonous yeasts. Then several more months on inox cuves before bottling.

Storage potential
Drink as from: 2026
Best moment: 2026-2028
Until: 2030

To serve
Serve at 13°C in a large Burgundy glass, juste after decanting.

Trial analysis
Beautifully sparkling deep yellow in colour. Exuberant aromas where we detect the nutty and roasty note of new oak as the first clue. Underneath is more fraîcheur, citrus and minerals. A nose that is ever-changing, blossoming open and going into crescendo. On the palate, we get the pattern that was visually and olfactively presented. A white Spanish wine that gives an uppercut of a fresh, ripe and bound acidity alongside its creamy, plump and oily attack. This increases the flavour sensation and quality structure of this beautiful and surprising white Spanish wine from Tenerife.

Wine style:
Atlantic, volcanic and mineral

Assembly
Vijariego blanco (100%)

Region:
Canarias

Appellation:
D.O.P. Islas Canarias - Tenerife

Wine estate:
Viñátigo

Description domain

Old Canary cultivars revisited by a family company equipped with state of the art technology.
