Albahra 2024
Envínate - 75 cl.

Envínate works in several regions across Spain. The common thread in their wines is elegance and an Atlantic character. This Albahra ("small lake"), however, is their Mediterranean wine, while still remaining light-footed and elegant in style. It is made mainly from Tintorera, sourced from a small 3-hectare vineyard in Almansa planted on clay-limestone soils. The blend is complemented by Moravia Agria, a grape variety of which only about 50 hectares remain planted across the whole of Spain. This grape is known for its high acidity and relatively light colour. The vineyard is located in Manchuela on clay-limestone soils with a sandy top layer. In 2024, a small amount of Garnacha was also added.

Vinification
Non-intervention philosophy. 50% of the Tintorera is de-stemmed, then stays for 8 months in concrete tanks, while the Moravia Agria est completely de-stemmed and after macerating for 7 days, is sent into 228 litre French oak barrels for 8 months. Sulphur is only added before the bottling.

Storage potential
Drink as from : 2026
Best moment : 2026-2028
Until : 2029

To serve
Serve slightly chilled (14-15°C)

Trial analysis
Light red colour. Red fruit on the nose - very refined. Confirmation on the palate, with the same fruit, but also a lot of freshness, and very Mediterranean spices. Light bodied, but full of personality.

Wine style:
Mediterranean, fruity and mineral

Assembly
Garnacha, Garnacha Tintorera, Moravia Agria

Region:
Castilla la Mancha

Appellation:
D.O. Almansa

Wine estate:
Envínate

Biological

Description domain

Behind the name Envinate are four friends from various wine regions of Spain who met while studying at the Faculty of Oenology in Alicante. Their preference for fresh and drinkable wines from old local varieties make them close, and so they decided to create a common project - the name meaning something like "let you be wined". This project grew in parallel with the activities of consultancy of the four members at different estates. Envinate has been a prominent factor for change in the regions where is it active - those the four members are from, to wit, Tenerife, Murcia, Ribeira Sacra and Albacete.
