Palladius PRIMEUR 2025

The juice is their put in concrete eggs or amphoras where it will stay for 12 months, before being transferred in big, old wooden vats, where it will stay 12 more months. Description domain

After having worked for several years in the Priorat and having founded Terroir al Limit there, Eben Sadie returned to his South African roots. As he said himself: "Winemakers have to make wine in the region where they were born. This is where they know best the terroir".
